PROJECTS

Personal Portfolio

Developed a personal portfolio using HTML, CSS, and Javascript to showcase my skills and projects. The portfolio features a responsive design, an introduction section, detailed descriptions of projects. This project demonstrates my proficiency in frontend development, including responsive web design, cross-browser compatibility, and user interaction.

TO DO Application

Developed a dynamic To-Do application using HTML, CSS, and Javascript. The application allows users to add, edit, and delete tasks, with a user-friendly interface and real-time updates. Implemented features such as task filtering and local storage to maintain task lists between sessions. This project demonstrates my abilities in DOM manipulation, event handling, and state management in JavaScript.
